NEW with Polypropylene Center Sections

Standard Duty Non-Metallic Pumps are ideally suited for highly corrosive fluids, intermittent/on-demand, portable, low abrasive fluids, and suspended solids. Standard duty non-metallic pumps are constructed in Polypropylene, PVDF, Conductive Acetal and Conductive Polypropylene with TPE (thermal plastic elastomers) and PTFE options in diaphragms and check valves.

Standard duty Polypropylene pumps installed for chemical processing.

Ex I M2 c T5
II 2GD T5
ATEX 100a Compliance to EC Directive 94/9/EC for use of equipment in potentially explosive environments.

Dimensional Detail

Distributor fabricated portable filtration cart with standard duty non-metallic pump.
